EXECUTIVE OFFICER

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**RECOMMENDATION TO APPROVE AMENDMENT NUMBER THREE TO AGREEMENT
NUMBER 74507 WITH CORE BUSINESS TECHNOLOGIES FOR CONTINUED
LICENSING, MAINTENANCE, AND SUPPORT
FOR THE AUTOMATED CASHIERING SYSTEM
(ALL DISTRICTS - 3 VOTES)**

**CIO RECOMMENDATION: APPROVE (X) APPROVE WITH MODIFICATIONS ()
DISAPPROVE ()**

SUBJECT

The Treasurer and Tax Collector (TTC) is recommending approval of Amendment Number Three to Agreement Number 74507 (Agreement) with CORE Business Technologies (CORE) to extend the current term of the automated cashiering system contract for two (2) years with two (2) optional renewal years.

IT IS RECOMMENDED THAT YOUR BOARD:

Approve and instruct the Chair to sign the attached Amendment Number Three to Agreement Number 74507 with CORE to extend the Agreement for two (2) years through June 9, 2012, with two (2) optional one (1) year renewal periods for a total of four (4) years for the continued licensing, maintenance, support, and provision of professional services for TTC's automated cashiering system, commencing on June 10, 2010, or the date of Board approval, whichever is later.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

TTC's automated cashiering system processes over 226,000 payment transactions annually, which includes 55,000 cash and 126,000 check and money order transactions. The stand-alone system located at the Kenneth Hahn Hall of Administration utilizes technology that includes hardware (such as servers, workstations, and peripherals) for twelve (12) cashier window stations, one (1) vault cashier station, five (5) back area office workstations, and two (2) remote workstations in Lancaster, software and ongoing maintenance and support. In addition, the automated cashiering system provides image capture to facilitate research of payments, online lookup to permit the processing of payments for customers that do not have a remittance stub and to process credit card payments where authorized.

TTC has exercised its second and final optional renewal year with CORE, which is set to expire on June 9, 2010. A term extension through 2012 with two (2) optional one (1) year renewals is requested as re-soliciting for a new/replacement system and a new contractor during these lean budgetary times would not be cost effective. Procuring a different contractor to provide the requisite licensing, maintenance, and support of the cashiering system would be cost prohibitive and would require a considerable amount of analysis and development time to identify and replicate the current system's functionality to ensure the necessary compatibility with the existing software and hardware. A new contractor, unfamiliar with TTC's business operations and requirements, would experience an extensive learning curve with the setup and integration into the current automated cashiering system, while potentially impacting TTC's current operation.

Approval of the recommended Amendment will allow TTC to continue to maintain and support the current automated cashiering system until June 9, 2012, with two (2) optional one (1) year renewals. In addition, the term extension will facilitate the implementation of a credit card module to the existing automated cashiering system to allow future acceptance of credit card payments at the TTC cashiering workstations.

Furthermore, funds to be utilized during this term extension will be covered under existing authority in the Agreement with CORE. Additional funding authority is not requested from your Board. In negotiating this Amendment, CORE was requested to consider further reductions per the Board's contract extensions/cost reductions initiative; however, CORE was not able to reduce costs beyond the levels proposed. Approval of the recommended Amendment will be a cost effective means of continuing maintenance and support services on the automated cashiering system as the total cost of \$96,627 for the extended four (4) year term is comparable to the cost levels in the current agreement (\$107,000).

Implementation of Strategic Plan Goals

The approval of the recommended Amendment is consistent with the County's Strategic Plan in the area of Goal 1, Operational Effectiveness and Strategy 2, Service Excellence and Organizational Effectiveness. The recommended Amendment provides for ongoing maintenance and support of the automated cashiering system, which supports mandated operations of the TTC.

FISCAL IMPACT/FINANCING

There will be no additional fiscal impact on current services as expenditures will be covered with funds available and authorized under the Agreement's maximum agreement sum. Funding for this Agreement has already been included in the 2010-2011 Adopted Budget, and will be included in TTC's budget requests for subsequent fiscal years.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

In accordance with the County's competitive procurement process, a Request for Proposals (RFP) for the provision of an automated cashiering system was released on October 7, 2002. Upon evaluation of the proposals submitted, CORE was selected and recommended for a contract award, which was approved by your Board on June 10, 2003, for a five-year term with an option to extend the term for two (2) additional years. TTC has exercised its final option renewal year, which is due to expire on June 9, 2010. Your Board's approval of the recommended action will authorize TTC to amend the Agreement to extend the term for two (2) additional years through 2012 with two (2) optional one (1) year renewals for continued licensing, maintenance, support, and provision of professional services on the hardware and software of the automated cashiering system.

The recommended Amendment (Attachment I) contains new required provisions pertaining to compliance with the County's defaulted property tax reduction program and termination for breach of warranty to maintain compliance with the County's defaulted property tax reduction program.

The County's Chief Information Officer concurs with the Department's recommendation (see attached analysis, Attachment II), and the attached agreement has been reviewed and approved as to form by County Counsel.

In addition, attached for your information is the required Sole Source Contract Checklist (Attachment III), identifying and justifying the need for the agreement with CORE. The Sole Source Checklist has been approved by the Chief Executive Office.

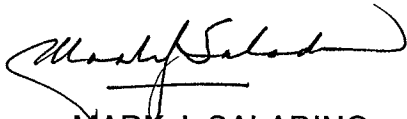

IMPACT ON CURRENT SERVICES

There is no impact on current services. Approval of the recommended Amendment will ensure uninterrupted software and hardware maintenance, licensing, support, and provision of professional services for the automated cashiering system.

CONCLUSION

Instruct the Executive Officer-Clerk of the Board to return two (2) signed originals of Amendment Number Three and one (1) adopted stamped Board letter to TTC.

Respectfully submitted,

MARK J. SALADINO
Treasurer and Tax Collector

Project/Contract Description:

The Treasurer & Tax Collector (TTC) is requesting Board approval of Amendment Number Three to Agreement Number 74507 with CORE Business Technologies (CORE) for continued licensing, maintenance and support for the automated cashiering system. The Amendment be effective on June 10, 2010 for two years with two (2) one-year extensions and will increase the maximum contract sum by \$96,627 to \$795,170, if both optional extensions are exercised.

Background:

On June 10, 2003, the Board approved an Agreement with CORE for a maximum contract sum of \$489,175 for a five-year term, with an option to extend the term for two additional years. On March 4, 2008, the Board approved Amendment Number Two increasing the maximum contract sum by \$33,663 to \$522,838 to purchase new workstations and software licenses as well as maintenance services. After Amendment Number Three is executed, TTC will execute Change Order No. 8 for \$116,537 to support credit card payments within the CORE System at the cashier's windows.

TTC has exercised its final option renewal year, which will expire on June 9, 2010.

Project Justification/Benefits:

TTC's automated cashiering system, which processes more than 226,000 payment transactions annually, supports 12 cashier window stations, one vault cashier station, five back area office workstations, and two remote workstations in Lancaster. Also, the automated cashiering system provides image capture to facilitate payment research, online payment lookup to permit the processing of payments for customers that do not have their bill and to process credit card payments where authorized.

Based upon discussions with TTC's technical and Cash Management staff, the current system, with planned functional improvements, will continue to meet the Department's needs for the next two to four years. Currently, TTC's Hall of Administration Cashiering Operation can only accept cash and checks through the CORE system. Credit card payments can only be accepted outside of the CORE system, however, if the proposed Amendment is signed, there are plans to add credit card payment functionality to the CORE system within one year. Additionally, TTC plans to explore the option to bar code bills, so they could be printed from the Internet.

Project Metrics:

Because this is an Amendment to an existing Agreement, the metrics on the current maintenance and support Agreement will remain in place. To date, the Department is satisfied with the performance of the vendor.

Impact On Service Delivery Or Department Operations, If Proposal Is Not Approved:

Approval of this Amendment will allow TTC to continue to maintain and support the current automated cashiering system until June 9, 2012, with two optional renewals, at which time a replacement system may be considered.

Alternatives Considered:

None. This Amendment extends the existing Agreement for licensing, maintenance and support. Re-soliciting for a replacement system and a new contractor would be cost prohibitive, and require a considerable amount of work to replicate the current system's functionality.

Project Risks:

There are no project risks identified at this time.

Risk Mitigation Measures:

None.

Financial Analysis:

The Amendment maximum contract sum is \$96,627. Funding for the Amendment has already been included in TTC's 2010-11 Adopted Budget and will be included in budget requests for subsequent fiscal years. In negotiating this Amendment, CORE was requested to consider further reductions, but CORE was not able to reduce costs beyond the levels proposed.

CIO Concerns:

None.

CIO Recommendations:

Based on our review of the Board Letter and discussions with the Department, this office recommends approval by the Board.

Check (√)	JUSTIFICATION FOR SOLE SOURCE CONTRACTS
	Identify applicable justification and provide documentation for each checked item.
	➤ Only one bona fide source for the service exists; performance and price competition are not available.
	➤ Quick action is required (emergency situation).
	➤ Proposals have been solicited but no satisfactory proposals were received.
	➤ Additional services are needed to complete an ongoing task and it would be prohibitively costly in time and money to seek a new service provider.
	➤ Maintenance service agreements exist on equipment which must be serviced by the authorized manufacturer's service representatives.
√	➤ It is most cost-effective to obtain services by exercising an option under an existing contract.
√	➤ It is in the best interest of the County e.g., administrative cost savings, excessive learning curve for a new service provider, etc.
	➤ Other reason. Please explain:
